

How to Weave a Magazine Recycle Purse

Hand woven handbags, purses, have been a fashion staple for a long time. Recycling paper magazines and other sources is a great way to make a fashion statement and help the environment. They are unique to the one creating them, environmentally friendly, fun and not complicated to make. Each one is a delight. The directions in this book will guide you in creating your own treasure with clear directions and detailed pictures. Beginning with a list of materials that you will not dent your pocket book, you will find step by step guidance in creating your paper weaving supplies. Then you will be guided to create the body, strap or handle and lining of your purse. Come and join the creative fun.
