

The Face Of Apollo (Saberhagens Book of the Gods 1)

In fine form, Saberhagen turns to a world that recalls (and may actually be) that of his Swords series. The ancient classical gods have returned but are at war among themselves, and this yarn opens with a battle to the death between Apollo and Hades. Although Hades appears the victor, the face of Apollo is carried off by one of the sun gods human votaries. It ends up entering the body of 15-year-old Jeremy Redthorn, turning him into an avatar of Apollo who possesses many attributes of the god. That gives him the power to summon swarms of bees against his enemies, but it also imposes responsibilities equal to the new powers and thrusts him forcibly into the front lines of the cosmic battle of good and evil. Saberhagen offers classical scholarship, wit, and brisk pacing in an admirable coming-of-age story that should appeal even to readers unfamiliar with the Swords books and attract Swords-familiar readers in swarms. Roland Green --
